About

Dan Lepore & Sons is a third-generation masonry construction company specializing in new building construction, maintenance, dismantlement, reconstruction, and restoration of buildings for a national clientele. For decades we have assisted industrial, commercial, and institutional clients with navigating difficult construction environments, assessing and repairing structural failures, implementing design/build projects, rigging, scaffolding, and preserving the historic fabric of notable buildings. Composed of three divisions, Stone Construction, Unit Masonry Construction, and Masonry Restoration, we provide a unique array of trade and professional skills with the ability to assemble the most comprehensive project teams available for masonry construction and restoration. Throughout changes in building technologies and styles, our commitment to service, innovation, and craftsmanship remains consistent.

Job Summary

Dan Lepore & Sons Company seeks estimator/project manager that has experience in the field and/or have studied historic preservation, construction management, architecture or a related field. Responsibilities will include project estimation, overseeing each project, submittal preparation, shop drawing creation, scheduling, day-to-day project management work, and interfacing with clients and construction professionals. Willingness to travel in the local areas and to neighboring cities to visit and for meetings is a must. The position includes benefits, competitive salary, and paid time off. The job includes both hands-on and administrative duties.

Candidates must have an understanding of architectural drawings, Microsoft Office Suite, Adobe Creative Suite, AutoCAD, excellent writing and research skills, and the ability to work independently. Creative design skills are beneficial but not required. Compensation to be discussed.

Interested applicants should send a cover letter and resume to Anthony Lepore at alepore@danlepore.com. Please email with any questions.
